

ArbiterGame Support Center

Aug 26th 2013 Update

Monday, August 26, 2013

ArbiterSports Release notes for August 26th, 2013:

Updates, Enhancements and Bug Fixes:

Added option to export failed game, team, or student imports to a .csv file

Added ability to import students directly to teams

Fixed rights settings for officials who had incorrect travel limits and active settings

ArbiterLive now shows the status of a game (e.g., Normal, Canceled, Rainout, Suspended, etc.)

Add feature that will allow schools to send a notification email to opponents, assigners, and officials regarding game changes

Fixed bug that automatically generated Transportation requests when games were scheduled by an ArbiterOne assigner
